Healthy Youth Survey 2004 Survey Results

American Indian or Alaskan Native Students in the Statewide Sample, Grade 8

Number of students surveyed: 314 Number of valid responses: 293

Introduction and Overview

The impact of adolescent health risk behaviors remains a primary concern of citizens throughout the country. Many health problems experienced by adolescents are caused by a very few preventable behaviors. Patterns of alcohol, tobacco, and other drug (ATOD) use and related risk behaviors are often formed during adolescence. These patterns play an important role in health throughout adulthood.

This report presents results from the fall 2004 Healthy Youth Survey in Washington State. This survey was sponsored by the Office of Superintendent of Public Instruction; the Department of Health; the Department of Social and Health Services; the Department of Community, Trade and Economic Development; and the Family Policy Council, in cooperation with schools throughout the state of Washington.

For each item, local results appear in the first two columns and statewide results appear in the second two columns. The number of valid responses ("n") appears in parentheses for each item. Survey items covering the same topics are grouped together (the item numbering is specific to this report and does not necessarily reflect the item order on the actual survey). The bulleted points and graphs included at the beginning of this report highlight selected findings. Additional information may be found in the *Interpretive Guide* that accompanied this report.

Key to the Notes

The survey was administered in 3 versions. Forms A and B were administered to students in Grades 8, 10, and 12. These two forms contained a core set of common items (see "List of Core Items" on the last page of this report) and additional items unique to each form. Form C was administered to students in Grade 6. This form consisted primarily of items drawn from Forms A and B but also included some unique items. Several items on each form were optional at the discretion of the school; schools that did not administer the optional items tore off the last page of the survey booklet. The following notes are used throughout this report to document the differences between the items on different versions and indicate the optional items:

A = wording on Form A B = wording on Form B

C =wording on Form C

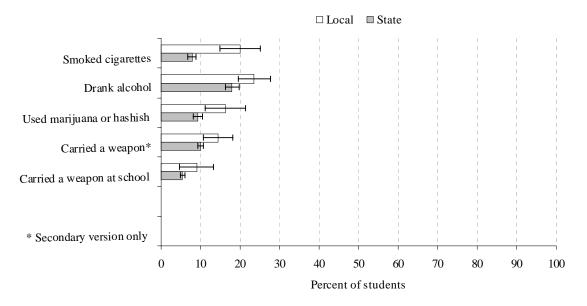

† = optional item

Highlights of the Local Results

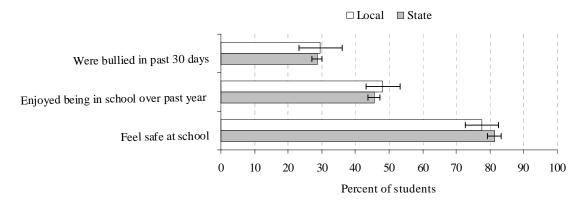

Your students and students statewide reported the following behaviors and attitudes:

		Your stu	ıdents	States	wide
•	Smoking cigarettes in the past 30 days (see item 24).	20.0%	$(\pm 5.1\%)$	7.8%	$(\pm 1.0\%)$
•	Drinking alcohol in the past 30 days (see item 30).	23.6	(± 4.1)	18.0	(± 1.8)
•	Using marijuana or hashish in the past 30 days (see item 31).	16.2	(± 5.1)	9.2	(± 1.2)
•	Carrying a weapon in the past 30 days (see item 114).	14.4	(± 3.7)	10.0	(± 0.8)
•	Carrying a weapon at school in the past 30 days (see item 115, 116).	9.0	(± 4.3)	5.4	(± 0.6)
•	Being bullied in the past 30 days (see item 135).	29.6	(± 6.5)	28.6	(± 1.6)
•	Enjoyed being in school over the past year (see item 200).	48.2	(± 5.1)	45.5	(± 1.8)
•	Feeling safe at school (see item 211).	77.7	(± 4.9)	81.3	(± 2.2)

Substance Use and Weapon Carrying in the Past 30 Days

Bullying and School Climate

Selected Results by Gender

Selected items are presented by gender to highlight any differences between females and males. The p-values reported after each item can be used to examine whether differences in the local data between females and males are statistically significant. To ensure student anonymity, local results are suppressed for each item on this page if any cell (e.g., females who reported smoking) represented fewer than 15 students.

During the past 30 days, on how many days did you smoke cigarettes? (See item 24.)

None 1 or more

During the past 30 days, on how many days did you drink a glass, can or bottle of alcohol (beer, wine, wine coolers, hard liquor)? (See item 30.)

None 1 or more

Think back over the last 2 weeks. How many times have you had five or more drinks in a row? (A drink is a glass of wine, a bottle of beer, a shot glass of liquor, or a mixed drink.) (See item 61.)

None Once or more

During the past 12 months, did you ever feel so sad or hopeless almost every day for two weeks or more in a row that you stopped doing some usual activities? (See item 125.)

No Yes

In the last 30 days, how often have you been bullied? (See item 135.)

I have not been bullied Once or more

I feel safe at my school. (See item 211.)

No Yes

Alcohol, Tobacco, and Other Drug Use

Alcohol, tobacco, and other drug use has been a major concern in this country for many years. The consequences of ATOD use are well known. In the short term, ATOD use interferes with positive physical, emotional, and social development. In the long term, ATOD use is associated with delinquency and criminal activity, unintended injuries, and a variety of health complications including shorter life expectancy. The economic costs of ATOD use are enormous (in Washington State an estimated \$1.81 billion in 1990 and \$2.54 billion in 1996). Tobacco use is the world's leading cause of preventable death, disease, and disability. This section provides information about lifetime ATOD use (which in part reflects experimental use), use in the past 30 days (i.e., current use), and other tobacco-, alcohol-, and drug-related issues.

Lifetime Use

12.	12. Have you ever smoked a cigarette, even just a puff? (Computed from item 219.)		Local $(n = 140)$		State $(n = 3.930)$	
	a. No	60.0%	(± 8.6%)	76.1%	$(\pm 2.7\%)$	
	b. Yes	40.0	(± 8.6)	23.9	(± 2.7)	

13.	Have you ever smoked a whole cigarette? (Computed from item 40 or 41.) a. No b. Yes		` '		te ,107) (± 1.8%) (± 1.8)

Other Health Concerns

This section provides results regarding other health concerns including nutrition and fitness, health conditions and health care, safety, behaviors related to intentional injury, and depression. Proper nutrition and exercise are critical components of a healthy life, as is access to preventive health care. Safety-related behaviors, such as wearing a seat belt when in a moving vehicle, can profoundly influence the outcome of an accident. Injury is the leading cause of death for adolescents aged 10 to 19, and violence contributes to injury-related deaths. People who are depressed experience a range of symptoms, and depression is associated with suicidal behavior.

Nutrition and Fitness

64. Overweight: "Overweight" includes students who are in the top 5% for body mass index by age and gender based on growth charts developed by the Centers for Disease Control and Prevention (2000). "At risk for overweight" includes students who are in the top 15% but not the top 5%. (Computed from numeric responses to "How tall are you without your shoes on?" and "How much do you weigh without your shoes on?")

Overweight At risk for overweight Not overweight

Note. Results are suppressed for building-level reports.

83. In an average week when you are in school, on how many days do you go to physical education (PE) classes?

a. 0	days
------	------

e. 3 hours per day

f. 4 hours per day

g. 5 or more hours per day

b. 1 day

81.

- c. 2 days
- d. 3 days
- e. 4 days
- f. 5 days
- 84. During an average PE class, how many minutes do you spend actually exercising or playing sports?
 - a. I do not take PE
 - b. Less than 10 minutes
 - c. 10 20 minutes
 - d. 21 30 minutes
 - e. 31 40 minutes
 - f. More than 40 minutes

Health Conditions and Health Care

- 85. Do you have any physical disabilities or long-term health problems lasting or expected to last 6 months or more?
 - a. Yes
 - b. No
 - c. Not sure
- 86. Do you have any long-term emotional problems or learning disabilities lasting or expected to last 6 months or more?
 - a. Yes
 - b. No
 - c. Not sure
- 87. Would other people consider you to have a disability or long-term health problem including physical health, emotional, or learning problems?
 - a. Yes
 - b. No
 - c. Not sure

School Climate

In the past few years Washington State has given increased attention to supportive learning environments. Students need a safe, nurturing, healthy, and civil learning environment if they are to be successful in school. This section provides information about student perceptions of school climate.

135.	A student is being bullied when another student, or group of students, say or do nasty or unpleasant things to him or her. It is also bullying when a student is teased repeatedly in a way he or she doesn't like. It is NOT bullying when two students of about the same strength quarrel or fight. In the last 30 days, how often have you been bullied?	Local (n = 277)
	a. I have not been bullied	70.4% (± 6.5)

(n = 277)		(n = 7,992)	
70.4%	$(\pm 6.5\%)$	71.4%	$(\pm 1.6\%)$

Quality of Life

Health-related quality of life is an individual's or group's perceived physical and mental health over time. At the individual level it involves a person's health and health-related conditions; at the community level it involves conditions that influence people's health. This section contains the results of the items related to individual quality of life.

[Item 149 appears only on the elementary version of the survey.]

Risk and Protective Factors

Decades of research have shown that certain risk factors are associated with increased likelihood of health risk behaviors including ATOD use, violence, and delinquent behaviors. Similarly, research has shown that protective factors exert a positive influence against the negative influence of risk factors. The survey included substantial coverage of risk and protective factors based on the work of Drs. Hawkins and Catalano and associates at the University of Washington. The premise of the risk reduction and protective factor enhancement approach to prevention is that preventing a problem before it occurs requires addressing the factors that predict the problem. Ideally, this strategy entails discovering the causes of the problem behavior and influencing those causes. Many of the survey items were used to assess students' status on risk and protective factors in the community, school, and peer-individual domains. Composite scales were computed for use in local program planning.

The table on the following page provides the complete list of risk and protective factors and indicates the years the Healthy Youth Survey has included each factor.

Risk and Protective Factor Framework and Reporting Schedule

Note. S = Included only on the secondary version; E = Included only on the elementary version.

Risk and Protective Factor Scale Results

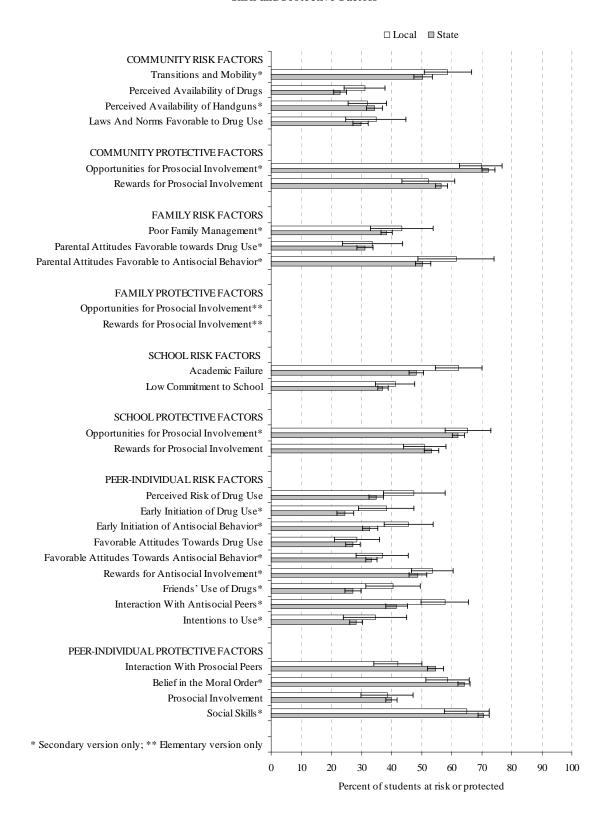

For each *risk* factor scale, the percentage of students who are at risk (i.e., who agreed with statements that predict ATOD use or other problem behaviors) is reported; higher percentages indicate that *more* students are likely to engage in problem behaviors. For each *protective* factor scale, the percentage of students who are resilient (i.e., who agreed with statements that predict the ability to resist ATOD use or other problem behaviors) is reported; higher percentages indicate that *fewer* students are likely to engage in problem behaviors. These percentages are based on computational methods provided by the University of Washington's Social Development Research Group.

Community Risk Factors	Local	State
Transitions and Mobility (Items 150–153)	(n = 153) 58.8% (± 7.8%) (n = 151)	(n = 4,238) 50.5% (± 3.1%) (n = 4,198)
Perceived Availability of Drugs (Items 154–157)	31.1% (± 6.9%) ($n = 150$)	$23.0\% (\pm 2.2\%)$ $(n = 4,195)$
Perceived Availability of Handguns (Items 158)	(n-150) 32.0% (± 6.5%) (n = 152)	(n = 4,193) 34.4% (± 2.5%) (n = 4,203)
Laws And Norms Favorable to Drug Use (Items 159–164)	(h = 132) 34.9% (± 10.0%)	(n = 4,203) 29.8% (± 2.5%)
Community Protective Factors	Local (<i>n</i> = 149)	State $(n = 4,114)$
Opportunities for Prosocial Involvement (Items 165–170)	$69.8\% \qquad (\pm 7.1\%) $ $(n = 153)$	72.3% (± 2.2%) ($n = 4,215$)
Rewards for Prosocial Involvement (Items 171–173)	52.3% (± 8.8%)	56.6% (± 2.0%)
Family Risk Factors	Local (n = 99)	State $(n = 2,528)$
Poor Family Management (Items 174–181)	(n = 99) $43.4%$ (± 10.4%) $(n = 98)$	(n = 2,328) 38.4% (± 2.0%) (n = 2,481)
Parental Attitudes Favorable towards Drug Use (Items 182–184)	33.7% (± 10.0%)	31.2% (± 2.5%)
Parental Attitudes Favorable to Antisocial Behavior (Items 185–187)	(<i>n</i> = 96) 61.5% (± 12.7%)	(n = 2,453) 50.5% (± 2.5%)
Family Protective Factors (Items 188–194)	[Only on the elementary ve	ersion of the survey.]
School Risk Factors	Local (n = 149)	State $(n = 4,071)$
Academic Failure (Items 195–196)	$62.4\% (\pm 7.8\%)$ $(n = 153)$	48.2% (± 2.4%) ($n = 4,234$)
Low Commitment to School (Items 197–203)	(n - 155) $41.2%$ (± 6.7%)	(n = 4,234) 37.1% (± 1.8%)
School Protective Factors	Local (<i>n</i> = 153)	State $(n = 4,186)$
Opportunities for Prosocial Involvement (Items 204–208)	$65.4\% \qquad (\pm 7.6\%)$ $(n = 153)$	62.2% (± 2.0%) ($n = 4,188$)
Rewards for Prosocial Involvement (Items 209-212)	(n - 133) 51.0% (± 7.1%)	(n = 4,180) 53.4% (± 2.4%)

Peer-Individual Risk Factors	Local	State

- 269. You're looking at CDs in a music store with a friend. You look up and see her slip a CD under her coat. She smiles and says, "Which one do you want? Go ahead, take it while nobody's around." There is nobody in sight, no employees, and no other customers. What would you do now?
 - a. Ignore her
 - b. Grab a CD and leave the store
 - c. Tell her to put the CD back
 - d. Act like it's a joke and ask her to put the CD back
- 270. It's 8:00 on a weeknight and you are about to go over to a friend's house when your mom asks you where you are going. You say, "Oh, just going to hang out with some friends." She says, "No, you'll just get into trouble if you go out. Stay home tonight." What would you do now?
 - a. Leave the house anyway
 - b. Explain what you are going to do with your friends, tell her when you will get home, and ask if you can go out
 - c. Not say anything and start watching TV
 - d. Get into an argument with her
- 271. You are visiting another part of town and you don't know any of the people your age there. You are walking down the street and some teenager you don't know is walking toward you. He is about your size. As he is about to pass you, he deliberately bumps into you and you almost lose your balance. What would you say or do?
 - a. Push the person back
 - b. Say nothing and keep on walking
 - c. Say, "Watch where you're going," and keep on walking
 - d. Swear at the person and walk away
- 272. You are at a party at someone's house and one of your friends offers you a drink containing alcohol. What would you say or do?
 - a. Drink it
 - b. Tell your friend, "No thanks. I don't drink," and suggest that you and your friend go and do something else
 - c. Just say, "No, thanks," and walk away
 - d. Make up a good excuse, tell your friend you had something else to do, and leave
